Petty Cash Discrepancy Report

The petty cash reconciliation at the end of September 2021 shows a discrepancy of £20 short.

All banking for September 2021 has been checked.

The Finance Assistant checked with Lloyds Bank if they had any discrepancies following the banking the Finance Assistant had made. Lloyds confirmed their tills balanced.

There is a possibility the discrepancy occurred during the exchange of monies for the Murder Mystery event held at Isambard House but there is no evidence to confirm this is the case.

Please find attached the petty cash reconciliation.

The following internal action has taken place to safeguard public money:

- 1) Petty cash transactions are to be managed by the finance department.
- 2) Petty cash is to be managed by two members of staff at all times. In the first instance, the two members of staff are to be finance. In the absence of a finance member of staff the receptionist will assist as a checking mechanism only.
- 3) Petty cash tin and receipt vouchers to be relocated to the reception side wall safe.

Committee's approval is required to write off the £20 discrepancy.

End of the report Finance Officer

Agenda Item 9

To receive a report on VAT.

The VAT return was submitted for the period 01/07/21 - 31/10/21

A VAT Refund of £12,182.23 is due for the period of 1/7/21 - 31/10/21

Agenda Item 10

To receive a report on investments.

- £200,000 with Public Sector Deposit Fund (Variable Interest Current Average 0.02%)
- £479,570 with Barclays Active Saver. (Interest Rate 0.1%)
- £500,650 with Nationwide on a 95 Days' Notice. (Interest Rate 0.4%)
- £674,417 with Cornwall Council instant Access Account. (Interest Rate Variable currently between 0.56%-0.67%)

Investment Threshold Limit £750,000

Following my review on investments and in light of the increase in precept over recent years the investment threshold limit of £500,000 is no longer sustainable. I would propose for the threshold to be increased to £750,000 which will cover periods when the precept instalments are received.

The Treasury Management Strategy Policy will be updated upon the P&F committee's decision.

STC to Invest in Local Authority Property Fund

The process for being able to invest in the CCLA Local Authority Property Fund has changed. The first stage of this process requires a suitability study report to be carried out by a treasury advisor independent of the CCLA. Arlingclose has been recommended by the CCLA, this study is at a cost of £795.

If the council agrees to go ahead then the attached questionnaire needs to be signed.

Following this suitability check, the members of the council need to be aware this is a long-term investment and if the council invested only for the short term, then the council is likely to make a loss.

I have had the following feedback from local councils in Cornwall that are already investing in the fund.

1) St Agnes Parish Council invested £100,000 a few years ago. In the last 12 months the returns have been £3,859.25. to put this into context, pre-pandemic estimates were a return of £4,000pa. So, the fact that it's there or thereabouts despite COVID is very encouraging.

The Property Fund is strong, despite the drop in demand for office space – this is because the portfolio is broad and there are increases in value in a range of other properties that the CCLA Fund owns.

2) Falmouth Town Council: Invest only up to the limit of any long term reserves you may hold – We invest £150,000, which during the pandemic dropped to a BID valuation of £146,792 as of 31st March 2020 (£3208 potential loss) this has now recovered but please ensure that your Councillors are aware that this is a long-term investment.

Returns are great – 2020/21 – net income of £6367.34 (4.24%)

Please find attached the return figures for the last five years.

Finance Officer's Recommendation

- 1) To go ahead with the suitability study report at a cost of £795 with Arlingclose. Following this report to bring back the results of the report to the next P&F meeting for members to further consider available options.
- 2) For members to email any queries regarding the investment to the Finance Officer so they can be resolved before the next P&F meeting.

Scope of Consultancy

Work is to assess the suitabillity of a proposed investment in the CCLA Local Authorities Property Fund (LAPF) by the council

Work to include

- Provision of a questionnaire for completion by the client
- Subsequent discussion if required
- Arlingclose to assess the questionnaire and other information provided by the council
- Arlingclose to provide a suitabillity report detailing whether the proposed investment in the CCLA LAPF is appropriate for the council

The work will not assess whether a more suitable investment is available, nor will it form part of a general investment review

State the organisations which will have access to the completed work.	Saltash Town Council

CCLA LOCAL AUTHORITIES' PROPERTY FUND SUITABILITY QUESTIONNAIRE

Council Name

1. Introduction

Please read and complete this questionnaire carefully to ensure it reflects the Council's circumstances, objectives, and priorities. If the Council does not agree with any of the statements or any information is subsequently found to be incorrect or there has been a material change to your circumstances, please tell us immediately as it may affect our recommendation. Please note that comments in red text are for information only and should be deleted as appropriate and/or replaced with your own comments.

The answers to this questionnaire will be used solely to determine if an investment in the CCLA Local Authorities Property Fund (LAPF) is suitable for the Council. It will not be used to ascertain if a better investment is available or to conduct a broader investment review.

2. Financial Circumstances

We must first understand the Council's financial circumstances to ensure it can afford to make the proposed investment of £XXX,XXX in the LAPF without serious negative impact to the provision of services. For this we require the latest:

- Investment strategy
- Annual report/accounts (specifically information on income, expenditure, reserves etc)
- Budget
- Investment portfolio

These are used to understand the Council's i) regular financial commitments, ii) source and extent of any regular income, iii) assets (including liquid assets, investments, and property), iv) capacity to absorb losses

If there have been any recent material changes or forthcoming updates to any of the above documents which may affect our recommendation, please provide details below.

Comments

Please highlight changes such as amendments to limits on new investments, use of reserves etc....

3. Investment Objectives and Constraints

The Council's investment objectives and constraints will be used as the basis for our recommendation.

Objectives include the desired investment return and risk tolerance. The return objective may require targets for income and capital/total return while risk tolerance assesses willingness and ability to bear risk.

Constraints include liquidity factors (short and medium-term spending needs), investment time horizon and any other factors which need to be taken into consideration (e.g. ESG, use of derivatives).

The return objectives and investment constraints should be detailed in the tables below:

Return Objective	Important? (Rank 1-3*)	Target Return (% per annum)	Nominal or Real Return**?	Acceptable Tolerance (Optional)	Comments
Capital	2	X.X%	Nominal	-0.5%	
Income	1	X.X%	Nominal	-1.0%	
Total	3	X.X%	Nominal	-1.5%	

^{* 1 =} most important, 3 = least important; ** Nominal means return before inflation, real return includes inflation

Constraint	Details			
Liquidity	At least XX% of the investment portfolio must be held in liquid funds (immediate access)			
Time horizon	The Council has a time horizon of 5+ years for the investment in the LAPF, however fund performance will be reviewed on a three-yearly basis			
Other factors				

4. Willingness and Ability to Take Risk

Understanding the Council's attitude to risk and capacity for loss is a key part of the process. Its willingness to bear risk, ability to do so, and capacity for loss must also be considered.

Willingness to take risk

All investment involves a degree of risk due to financial market uncertainty but also inflation and/or other economic risks including not achieving target returns. Investment returns are usually proportional to the level of risk (volatility) taken and to short, medium, or long-term losses.

In the table below please specify what risk of investment loss the Council deems acceptable:

Risk	Not for any period	Up to 1 year	1-3 years	3-5 years	5-10 years	10+ years
No capital loss is acceptable						
5% fall in capital value						
10% fall in capital value						
10%+ fall in capital value						

Between 1990 and 2020 the annual capital return of the LAPF has been positive (above 0%) for 18 years and negative for 13 years, with the largest single annual gain of 15% and largest annual fall of over -30%. The Council must therefore understand and accept that such fluctuations can occur and even if investing for the

long-term, it may receive less capital back than was originally invested. Moreover, the high costs associated with investing in property means the LAPF has a total bid/offer spread of 8.30%, which immediately reduces the capital value from the amount invested. It is assumed that the acceptable capital loss stated above is outside of the impact of this spread.

While the Council has deemed an acceptable level of loss above, it understands that financial market conditions may cause investment losses exceeding those specified above and that the bid/offer spread on the LAPF will immediately reduce the capital value compared to the amount invested. Please acknowledge acceptance of this in the box below together with any additional comments.

Comments			
Yes/No			

Ability to take risk and capacity for loss

Given the cyclical and illiquid nature of property, Arlingclose suggests an investment in the LAPF should be made with the intention of holding it for at least five years. If the Council has a timescale for redeeming some or all of the proposed investment, please detail it below:

Period	£/% To be Realised	Comments	
Less than 1 year			
1-2 years			
2-3 years			
3-5 years			
5-10 years			
10+ years			

The Council's capacity for loss indicates how much it could afford to lose if the LAPF does not perform as anticipated without it seriously affecting its investment objectives and provision of services.

For the reserves held (please tailor the 'type of reserves' listed to those held by the Council), please state in the table below the type, amount, and proportion of reserves available to cover investment losses. The reserves position is shown as at XXth XXXX 2021 (please insert appropriate date):

Type of Reserves	Balance of Reserves (£)	% Available to Cover Investment Losses	Amount Available to Cover Losses (£)
Dedicated Treasury Management Reserves	10,000	100%	10,000
General Reserves	50,000	25%	12,500

Earmarked Reserves	5,000		
Other Reserves (please state)	0	0%	0
Total	65,000	N/A	22,500

5. CCLA LAPF Investor Documentation

Prior to investing in the LAPF, the Council should read and understand the documentation published by CCLA on the fund, including (but not limited to):

- Fact sheet
- · Fund profile
- Key Information Document (KID)
- Scheme information

After reviewing of these documents if there are any issues requiring further discussion or clarification, please detail this below:

6. Asset Allocation

Stable long-term investment returns are typically obtained from a diversified portfolio not overly focused on any one investment or asset class. It is assumed the Council's investment in the LAPF will be in accordance with these principles but accepts that an assessment of this is outside the scope of this report.

7. Approved on behalf of the Council

Please ensure a person with the relevant authorisation approves below on behalf of the Council.

Risk Warning
Please remember that the value of units and the income from them can fall as well as rise and an investor may not get back the full amount invested. Past performance is no guarantee of future returns. The Property Fund's unit value will reflect fluctuations in property values and rents. The units are intended only for long-term investment and are not suitable for money liable to be spent in the near future. They are realisable only on each month end valuation date and a period of notice may be imposed for the redemption of units.

Finance Officer's Report

1) CIL Planning Funds

To Note STC is due to receive two further CIL Planning application monies as below:

PA19/09772 Saltash £385.99 Old Churchtown Farm Lane St Stephens Saltash Cornwall PL12 4AR

PA18/09294 Saltash £840.00 Land On The North Side Of 1 Castle View St Stephens PL12 4RD

This gives a total of CIL funds to date of £2,808.99 which needs to be spent within the next five years.

2) CIL 2020-21 Report

To note the attached STC CIL reports for 2020-21 which are also published on the website.

3) Credit Limit on Store Credit Cards.

Currently the current limit on store credit cards is £1,000 and there has been occasions over the past year where we have reached this credit limit with a few suppliers, and this has resulted in a stop been put on the account and unable to obtain the goods until the account is clear. I would recommend for this credit limit to be increased to £2,000.

The financial regulations will be updated upon P&F committee's decision.

Agenda Item 17

HUDSON ACCOUNTING LTD.
INTERIM INTERNAL AUDIT REPORT:
TO THE MEMBERS OF SALTASH TOWN COUNCIL
YEAR ENDED 31ST MARCH 2022.

ISSUE DATE: 06/10/2021

ISSUED TO: ACTING TOWN CLERK

INTRODUCTION:

Internal auditing is an independent, objective assurance activity designed to improve an organisation's operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.

Scope:

The scope of the audit covers, as a minimum, the areas included in the Internal Audit Report contained in the Annual Governance & Accountability Return and the Transparency Code.

Any areas not covered at this interim stage will be included later in the year or during the final audit activity.

Approach:

Audit work is carried out in line with the Chartered Institute of Public Finance and Accountancy's

Internal Audit Standards and guidance issued by the National Association of Local Councils.

Where applicable we have included reference to 'proper practice' and the associated guidance as laid out in 'Governance & Accountability for Smaller Authorities in England' which is applicable to financial years from 1st April 2021.

Selective testing was carried out and the relevant policies, procedures and controls were reviewed.

GENERAL COMMENTS:

We would like to thank the staff for their assistance and co-operation during the audit.

The matters raised in this report are only those which came to our attention during our internal audit work and are not necessarily a comprehensive statement of all the weaknesses that exist, or of all the improvements that may be required.

It should be noted that assurance can never be absolute. The most that the internal audit service can provide is a reasonable assurance that there are no major weaknesses in risk management, governance, and control processes. The audit does not guarantee that the accounting records are free from fraud or error.

We have provided a table of audit recommendations that allow for the Council's response which can be used as an ongoing monitoring tool. We would be grateful if, in due course, it is completed and returned to us.

AUDIT COMMENTARY:

Items in **bold text** within the body of the report represent our findings in respect of the application of controls, text in *italics* represent suggested actions that fall short of being a formal recommendation or do not necessarily pertain to the application of internal controls.

Previous Recommendations

The current position in respect of previous recommendations is set out in the Internal Audit Response Record appended to this report.

Accounting Records

The accounts are maintained on Xero accounting software; they were up to date and appeared free from material errors.

Financial Regulations

Financial Regulations were last reviewed in May 2021.

Payments

A sample of payments was tested to establish whether the spending decision, procurement process, certification and approval for payment were in line with Financial Regulations as well as ensuring that payments were supported by invoices, VAT was correctly accounted for, and payment controls were applied.

Authority to spend:

Spending decisions are traceable to Member approvals in the Minutes.

Procurement:

Within the sample tested the procurement requirements of Financial Regulations had been met.

Payment:

Testing revealed no issues to report, controls were consistently applied and data, including VAT, was accurately reflected in the ledger.

Risk

Risk Assessment:

The Council reviewed its Risk Management arrangements in May 2021.

It also re-affirmed its qualification for the general Power of Competence.

Insurance:

Statutory insurances are in place and the Fidelity Guarantee is adequate at £2 million.

A comparison of the asset register and insurance schedule showed that the Councils major property holdings are insured.

Cash:

A Treasury Management Policy covering the 2021/22 financial year is in place and regular reports on Investment activity are provided to Members.

Budgets

Setting:

We reviewed the 2021/22 budget setting process as part of our final audit work last year and we review the 2022/23 process later in the year.

Monitoring:

Budget monitoring reports are provided to each Committee meeting with appropriate actions taken where necessary.

Income

Systems were tested to ensure that suitable controls are in place to ensure that all income is received in a timely manner, that charges are correctly applied and that any cash received is promptly receipted and banked.

Precept:

The precept payment received is in accord with that set by the Council.

Annual Moorings:

Fees have been accurately applied and collected in a timely manner.

The scale of fees and charges does not make clear whether the charge, including the minimum charge, is inclusive of VAT (which is how it is being applied).

It would be sensible to make the VAT position clear on the published charges.

Allotments:

All allotment charges have been correctly billed and promptly collected.

VAT:

VAT claims are up to date.

Payroll

2021/22 pay award:

The national pay award has yet to be agreed.

New Starters:

There have been a number of new employees all have been issued contracts of employment and are being paid in accordance with them.

Re-gradings:

Changes to terms and conditions of existing employees have been duly authorised by Members and accurately implemented.

Bank Reconciliations

Bank reconciliations are carried out monthly and are reported to Members.

Testing of reconciliations carried out showed that they were accurate with no old unpresented payments.

Electors Rights

The 2020/21 Annual Governance & Accountability Return was properly approved by Full Council.

The opportunity for electors to examine the accounts was properly advertised and the publication requirements in respect of the 2020/21 accounts have been met.

Report to Policy & Finance Committee 9th November 2021

Background

Saltash Town Council renewed the Insurance Property & Liability portfolio* in 2019 under a Long Term Agreement (LTA) contract for 3 years with a 2 year extension (until October 2022), excluding Motor cover. Motor risks are insured separately on an annual premium basis with a local Brokerage.

Current position October 2021

The Council will renew Insurance* within the terms of the (LTA) subject to uplift on property value sums insured. The premium is within budget for 2021/2022.

Insurance market 2022

Insurance rates are currently at their softest except for motor risks and premiums will harden over the next couple of years.

Zurich Municipal are experts in Underwriting Local Council business and offer competitive rates and long term Policy discounts. Zurich also deliver an excellent claims service and flexible with underwriting new risks. An extension period would avoid a Tender process until 2024, and the (LTA) can be addressed anytime during 2022.

Recommendation

That the Policy & Finance Committee agree to extend the Long Term Agreement with Zurich Municipal until October 2024. Recommendation to Full Council 2nd December 2021.

C Cook (Locum) Town Clerk

Photocopier Contractor Report

Information:

The Town Council's current contract with regard to the 2 freestanding print, copy and scan machines located in the Guildhall Reception and Top Office ends in **April 2022**. It is therefore necessary to relook at options and associated costs to ascertain Council requirements, costs and contract length.

It has also been highlighted by the Finance Assistant that due to the recent growth of the Council, it would be suitable to review all the printers currently owned and used within the various departments. Currently 5 desktop printers are in regular use. These printers incur costs with regard to ink cartridges and the staff time required to procure the consumables.

Research:

The report outlines 4 quotes from 4 separate providers as well as additional options which can be included. For example, equipment and services. These have been identified and consideration given to the requirements for each department within the Council.

Please note that contracts are normally for a 5-year lease period. Companies do offer shorter leases. However, after researching, it is believed a 5-year lease period is the best value for money and allows sufficient time for technologies to advance prior to contracting into a further lease period in the future.

The recommendation put forward below is based on current usage, requirements, and ecological impact.

Equipment:

Current Equipment Held:

• 2 Photocopier machines including booklet makers.

Proposed Equipment:

Guildhall Reception:

- Photocopier Machine
- Booklet Maker

Guildhall Top Office:

- Photocopier Machine
- Internal Multi Position Stapler

Town Clerk's Office & Longstone Garage and Store:

A3 Printers x 2

Costs and Budget:

Current Annual Cost: £5,365.00

Budget Code: 6303 PO Copier Maintenance P&F Budget

These costs do not include consumable costs for stand alone printers at Longstone or

Town Clerk's Office.

Options:

Members to consider appointing a company for a 5-year lease period and approve the equipment recommendation as per the above at a total cost as follows:

Photocopiers - Total Costs Per Quarter and Per Year

Guildhall Reception:

Includes machine and booklet maker

	Per Quarter	Per Year
Company A:	£238.63	£954.52
Company B:	£220.92	£883.68
Company C:	£216.45	£865.80
Company D:	£234.50	£938.00

Guildhall Top Office:

Includes machine and internal multi position stapler

	Per Quarter	Per Year
Company A:	£191.10	£764.40
Company B:	£189.37	£757.48
Company C:	£166.46	£665.84
Company D:	£188.60	£754.40

Papercut:

	Per Quarter	Per Year
Company A:	£139.50	£558.00
Company B:	£103.33	£413.32
Company C:	£132.57	£530.28

(After 1st year upgrade insurance of £156.00 per year to be included in

the above quote)

Company D: Offered an alternative as felt Papercut was not required and too

expensive.

A3 Desktop Printers:

2 x additional A3 machines for the Town Clerk's Office and Longstone Garage and Store.

	Per Quarter	Per Year
Company A:	£131.10	£524.40
Company B:	£192.00	£768.00
Company C:	£328.00	£1,312.00
Company D:	Free of Charge	Free of Charge

After further consideration the papercut software package is not required as the Council would not benefit from the software's multiple functions.

Total Costs per year based on equipment recommendation:

Company A £2,243.32
Company B £2,409.16
Company C £2,843.64
Company D £1,692.40

If the Council were to appoint company B the cost savings on the maintenance and printing totals would be £85 per quarter which assists with the additional lease cost of $2 \times A3$ printers for Longstone and Town Clerk Office.

END OF REPORT

IT Consultant Report

Information:

The Town Council's contract with its current IT provider is due for review by April 2022.

This review is practiced every three years to ensure the Town Council is receiving the best quality service and value for money dependent on the ever-changing needs of the Town Council services and employment growth.

Research:

IT Services are exceptionally complex and many providers offer a variety of services.

Five quotes have been received from five suppliers, one of those being the Town Council's current provider. Local companies, as well as those from further afield have provided quotes. All of these companies offer different packages subject to the needs of the Town Council.

Please note that costs can vary. This is due to costs either being charged per user or as a standard monthly fee based on the Town Council's size. It is also worth noting that these costs fluctuate depending on the number of users, usage and data. Therefore, a yearly cost would be estimated and not confirmed. All total costs are subject to fluctuation dependent upon the Town Council's requirements.

It is required that Members should consider the options and the initial capital costs for IT Services. It is considerably cheaper to remain with our current provider as there are no capital costs. However, it must be considered whether this is in fact the best working practice for the Town Council when allowing for future service requirements.

Company A Summary:

- These prices are to increase with the CPI average of 2.5% for the year 2022/23 with an estimated total amount of £1,116.27.
- Although a local company, due to their size, IT issues incurred by employees of STC can vary in time for resolutions to be reached therefore creating a loss of service STC are providing to its residents.
- Due to the Council's continued growth the services provided have been added over time with many areas identified as areas that can now be consolidated to achieve cost savings for the Town Council and streamlined to assure less operational impacts on IT services across all departments.
- Library Lease line contract is up for renewal and will be considerably cheaper with an estimated saving of around £250.00 per month.

Company B Summary:

Total Monthly Cost:

• IT Support and Maintenance from the IT Technical Centre between 8am and 6pm with support available 24hours for an additional cost per user per month.

£1,386.83

- Office 365 Business Premium accounts required for maximum security and allows for secure remote working.
- MS Teams Business Voice available if the Town Council wished to combine IT Services with telecommunications at a cost of £14.50 per user per month.
- Clip Training available per month at £2.50 per user with any new starter to receive first 3 months free of charge to ensure full training and knowledge of IT systems and functionalities used within the various Town Council departments and auditable by their line manager.
- Has offered to present to the Town Council how their services would operate in practice.
- Data Migration, regarding moving Microsoft Tenant confirmation has been received that there will be no disruption whatsoever, when migrating the data from the server to SharePoint, the company would normally perform this out of

hours or over a weekend to limit any disruption, unfortunately they cannot guarantee that there will be no disruption, but it is priority to keep this to a minimum.

- SharePoint access, SharePoint is a full Document Management platform that has access control and permission sets from site to folder to file, this will allow restricted access to a folder but should there be a specific document that needs to be shared outside of the permission set the staff would be able to do so, this can also be done the opposite way around, a file can be locked to anybody but the owner while the folder is open to the permission set.
- Ticket and Support Priority, the company will liaise with staff to work out the process of the requirement priorities i.e. system crashed should be a P1, I want to change my signature a P3 (happy to share examples of what is in place for other customers). P1 being critical, P2 urgent, and so on. All users will have a helpdesk email they can send to as well as a phone number to call. Weekly ticket reviews to see what tickets had been created, what the action was to resolve, time opened, and time closed. These reviews are very helpful and can assist in future training.
- Device Management and Auditing. With Microsoft Intune (Part of the current MS licenses) all devices are managed and maintained, the company will also keep a register of IT hardware and equipment and do a quarterly, biannual, or annual review with the Town Council, in the review the company will look at what options are available to the Town Council.

- Option to pay capital costs over 36 months Example 3-year Lease Rental Option for £12,997.65 Capital Cost. Initial Payment of £410.34 followed by 35 monthly payments of £410.34. Please note; this is through a in-house finance broker (Southwest Comms), 50% deposit is required to secure the order. The rate is based on £34.54 per thousand borrowed. This is a lease purchase, so all equipment would be the Town Council's at the end of the term.
- Provisions to consolidate IT & Communications partnership, streamlining support and costs into a single relationship, offer to contribute towards a fully featured Unified Communications within the IT Support contract. Wildix software is free when initially registering for IT Services RRP worth in excess of £368.35 with handsets included. This cost would be for the 36-month term when contracting to IT services.
- SOPHOS is a reputable and recognised supplier of security software. Company
 C believes prevention is better than a cure. For example, if one ransomware
 was to succeed in infiltrating the Town Council's anti-virus software this could
 create a massive GDPR issue with costly fines occurred and additional costs to
 obtain any recoverable data. This also may include a loss of data due to it not
 being recoverable which could have a huge impact on the Town Council's
 services.
- Has offered to present to the Town Council how their services would operate in practice.

- Company E is not local to the southwest.
- Security is a key factor in the proposal with the suggestion of a SOPHOS network firewall rather than email / cloud security.

Finance Summary:

Available Budget for IT Maintenance 2022/2023:

6306 IT Maintenance £8,624.35

Available Budget for Capital Costs:

6370 Computer Equipment Renewal £7,000.00 6274 Internet Redevelopment (to be vired) £5,000.00

Please note no computers are due for renewal in the year 2022/23 with sufficient funds still available for Councillor IT Equipment should this be required.

Internet redevelopment funds (£5,000) are no longer required. The Town Council have the option to vire the funds.

If Members chose to appoint Company C, it would have a total amount of £1,000 added to the precept for the year 2022/2023.

Overall Summary:

IT Services are crucial to the Town Council's day to day operations. Any negative impact caused by deficient IT services has a knock-on effect to all departments. As a consequence, employees cannot complete work that is heavily reliant upon IT services in an efficient and timely manner.

The impact of a change of IT supply and differing working practices could affect services provided by the Town Council. Please note; any change in IT services would require training of the software packages and processes if they were to be implemented.

There are a vast amount of competing IT services available in the current marketplace. It has been difficult to determine exactly what is required to streamline the Town Council's IT services and working practices. Additionally the identification of services which may not be suitable anymore due to the Town Council's increased size has proved challenging.

Therefore, Members are requested to consider and approve one of the following options:

Option 1:

To reappoint the Town Council's existing IT Consultant for a period of 3 years.

Options 2:

To appoint an IT Consultant based on the information provided.

Option 3:

To appoint a qualified and experienced external IT specialist to write a specification to go out for tender.

Option 4:

To create a working party to further investigate the proposals received and report back to Members with a recommendation.

END OF REPORT

Report to P&F - Provision of IT to Council Members

Further to the establishment of a policy to offer IT provision to all Council Members a budget of £15,000.00 was added to the EMF Computer Equipment Renewal to facilitate this.

The rationale behind the proposal was outlined in an email to Members:

Whilst it will be impossible to stop the use of a personal phone used to access emails 'on the move' you are encouraged to think <u>very</u> carefully about downloading to personal devices from a GDPR and Data Protection point of view. With a Town Council device, you can download your emails and working documents to a device that you know is secure and that no-one else will have access to.

Town Council meetings – all the documents available to you on the device and you will be able to make any notes on the device prior to the meeting. Everything in one place!

A 'Green' approach to business – this would allow the paperless meeting to be a reality! Ultimately a time saving and cost cutting approach for the Council. Confidential papers can be delivered and destroyed effectively without anyone having to worry about 'where did I leave that piece of paper'.

Ultimately having a Council issued device to keep all your Council related emails and documents on is for your protection as well as the Council. Those of you who attended the Data Protection Training will be aware of the importance of good data management - knowing what you have and where it is. Using multiple devices that could be accessed by others, even devices that are shared with other family members, poses a risk that can be avoided.

To keep the process as straightforward as possible two options have been suggested – a laptop or an iPad including appropriate accessories with the emphasis on portability, camera for remote meetings and a suitable size screen for viewing documents at meetings. All devices will be set up with required software.

The devices will remain the property of the Town Council on loan for the period of office. Members will be required to sign for the devices on collection and confirm that they will abide by the Provision of IT and Acceptable IT Usage Policy and the Information and Data Protection Policy.

Members who choose not to take up the offer of IT will be asked to sign a form confirming that they will conform with the Information and Data Protection Policy when processing data within their Saltash.gov.uk email account.

-

¹ Requests for reasonable adjustments will be considered.

Poll

A poll was held asking Members for their opinion as follows:

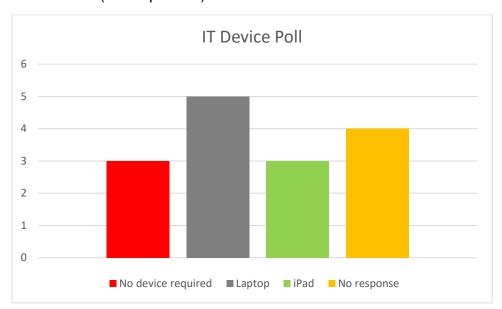

Please indicate whether or not you would like an IT device

A No I do not require an IT device

B Yes I would like a laptop

C Yes I would like an iPad

Poll results: (11 responses)

Quotations were obtained from two sources – an external business supplier and the Council IT Consultant. Prices and device specifications were comparable.

External Business Supplier: Devices would need to be set up using STC licences and the Council IT Consultant is unable to offer any support where devices are not supplied by his company.

Council IT Consultant: Devices will include all required software and set up in the cost quoted. Ongoing support can be provided.

Device details

Item	Quoted cost (£) + VAT
Laptop (Dell)*	600.00
iPad Air	539.00
Smart Keyboard	154.00
Apple Pencil (Gen 2)	104.00
Setup	Included

^{*}Please note that there is a problem with the supply of laptops at present and it is possible that those quoted for may not be available at time of order or be subject to a delay.

Additional costs:

Targus Protective Laptop Bag from Amazon	£13.19
Logitech Wireless Mouse from Amazon	£9.99
Seymac Slim Protective iPad case (where no keyboard required)	£25.99
Upgrade to software licences: £8 per account (+ VAT)	

Recommendation

The recommendation is to proceed with purchase from the Council IT Consultant.

UKGDPR/Data Protection – Report to P&F November 2021

Training

ICO guidance places a responsibility on the Town Council as the Data Controller to ensure that all Data Processors are given adequate and appropriate training. In response to this guidance two training sessions were held for Members providing information on their responsibilities when handling data arising from their roles. These sessions were part of the mandatory induction training for all Members and the second session was scheduled around the diaries of those who had been unable to attend the first session.

Session 1: 5 attended (one of these has now left the Council)

Session 2: 4 attended

Of those remaining one Member was away, one sent late apologies, one did not reply, two confirmed attendance but did not attend on the night and one had only just joined.

As the Officer responsible for overseeing compliance I feel very strongly that it is important for this training to be delivered to Members and holding this as a live session that allows interaction is important. One further session will be held to include all those Members who have yet to attend and this will be arranged in due course.

Site visits

1. Library

Following the introduction of the procedures for photography and filming at events, a visit was made to see how it is working. I can report that it appears to be working extremely well with a member of staff in clear control of the administration and greeting visitors arriving for an event to check they had completed a form. The team reported that there had been no objections to the data collection and felt the form was clear and appropriate.

Advice has been given on the need to digitise data promptly and minimise retention of paper copies.

It was requested that I review the permission form for one off events which I will do in consultation with the Community Hub Team Leader.

It was noted that there is only one small lockable cupboard available on the main library floor. There is a large cabinet within the office but the lock is broken. The Service Delivery Team will look at this.

2. Service Delivery Department

The SDM requested a visit to assess compliance at Longstone and the Waterside Office.

It was clear from the visit that data protection is embedded in the day to day running of the department and the historical paperwork is being dealt with as time allows.

Whilst the importance of good data protection practice is impressed on all members of the team when they join I will review the current training that is in place to see if I can make it more relatable.

The office at the Waterside is now used by the ASDM when he is not out on site. Again good awareness is in place but the office needs a shredder and small printer/scanner which will remove the need for any paperwork to be physically taken to the main office and allow secure disposal.

Coombe Woods

Community Chest funding

£600 has been spent on 12 tree signs and a further two wood signs. There is £100 refund due to the Council.

The project has been hampered by COVID however now eight of the signs are in place with plans for the rest to be installed ASAP.

RBL Festival Fund Application 100 – Annual Festival of Remembrance 30th October 2021 CANCELLED

Correspondence was received on Friday 10th September to inform Members that unfortunately due to Covid restrictions in the Wesley church, advice had been taken from RBL Head office and it was decided to cancel the Festival of Remembrance event on October 30th for which the applicants – Saltash RBL were awarded a £700 grant from the Festival Fund.

The Finance department is in the process of retrieving the monies and will update the Festival Funds budget accordingly.

END OF REPORT.

Dear Ms Burrows

Festival Funding

I am returning the offer letters to you that were sent recently to

unsigned.

Unfortunately, due to COVID-19, we have had to cancel our forthcoming Festival of Remembrance Service and I therefore also enclose our cheque for £700.00 as a refund of the grant, that was kindly paid to us in support of this event.

Yours sincerely

Regatta Reflections - Chairs report

Regatta 4th & 5th September 2021

Karen Lilley, Chair and Aaron Monk (Diverse Events CIC) along with the volunteers organising the annual Regatta and Waterside Festival, are delighted to celebrate another successful event enjoyed by many visitors, near and far.

Feedback has been very positive overall.

After the postponement last year due to Covid, and delays organising this year's event, for the same reason; it was a challenge to pull everything together in time for the 2021 Regatta. The Gig rowers were unsure if they could attend and there was great concern that the event would fall flat, but thankfully; they came, along with Saltash Rowing Club and the sail by from the Cargreen Regatta. The Tamar was awash with activity and Brunel green was packed.

With only days before the event, toilets could not be sourced, and volunteers could not be engaged. It was a scramble at the end that saw Karen and Aaron and everyone who could, begging for toilets. In the future we will take no chances and payments will be made in advance to ensure we are not in this situation again. We will use a new supplier after being let own badly, despite booking our toilets.

The kindness of many supporters who contributed through our Go Fund Me Appeal, along with a monumental donation from John Lawler from Waterways Drainage Specialists in Saltash, meant we were able to bring in a truckload of sand at the end of July, just in time for the school holidays. I believe that waterways will probably always sponsor the sand, it has been suggested already. I think "Go Fund Me" has probably run its course now for sand.

Sponsorship was sourced from Saltash Town Council as the main sponsor, with financial contributions gained from Cornwall Councilors, Carlton Plastics, Spinnaker International, Grove Nurseries Boarding Kennels and Ambers Angels. This was significantly lower although Jolly's have expressed an interest in future sponsorship.

Carlton has confirmed they will always sponsor the event. Nonetheless, this year we did make a loss so are starting the New Year without a lot of money. This is a concern and needs the most attention.

The support the event received from the Royal Navy Submariners was exemplary. They helped with all aspects of the management, in particular roadblocks. Additionally, they had a great attitude and got involved in the races at the same time.

The event supporters included CBL Hire and Sales, Sky View Media, Waitrose, Redeemer Church, Mike Pitches Photography and Community Enterprises, PL12.

We were grateful to have the Saltash Hopper Bus expertly arranged by Alan Marks to help visitors get up the hill! This year we did not pay for the buses, and we usually have to. It was very helpful to not have to run Gig rowers around and to not need to find more money for the buses. In future we will not provide transport for Rowers, but we expect we will need to pay the buses.

The Saltash service deliver team, (Mike and Steve) proved to be really helpful throughout every stage of the preparations and the event itself. We were grateful to be able to access power, although on reflection, we did not actually use any notable quantity. It was helpful to know we had it if needed.

The team kept toilets in order and kindly ensured we had the portable covid units. It makes all the difference to know that the Town Council are rooting for you!

A huge thanks to the Mayor at the Civic and Children's Parade. The Mayor opened the event and spent some time visiting the stalls and selling cakes at Ashtorre. Special guests included Brunel School who made a huge effort; along with a few Dinosaurs to add to the spectacle. Saltash Town Band led the procession safely to the Waterside, where prizes, donated by Truly Scrumptious Sweets, were handed out. The parade had fewer children due to its timing in September, when schools are not engaged. Perhaps in the future we need to plan this more with the schools. Karen also feels that she may have missed some invitees and will address this for the future. Namely, the High Sheriff and other dignitaries.

Saturday afternoon saw the popular Wild Swim and the introduction of a new fun race: The Regatta Relay. Paddle boards were kindly be provided by Mai adventures to local businesses and groups to have plenty of watery fun. The outright winners were MoreCore Gym, Saltash, who took the top spot from the Royal Navy Submarine Service. This was fun event, cleverly put together by Redeemer church and will be continued, I am sure. Mai Adventures enabled this to take place with use of paddle

boards etc. There were many people saying how paddle board hire at the Waterside would be a good thing.

Activities on Sunday included the glorious Paint Party and the thrills and spills of the Cardboard Boat Race. Jon and Dee White, along with their team of volunteers from Redeemer Church, have been organising this infamous spectacle for four years now, setting up a workshop in Studio 79 on Fore Street as a hub of remarkable creativity and cardboard. Intrepid sailors competed for coveted titles including the Most Impressive Sinking and the Brunel Award for the Best Eco-creative Design.

This year was so popular that we had a waiting list! This is no doubt the highlight. Plans for the future could include having the boats carried down in the parade...watch this space!

Another public appeal saw a local company called "We Dump 4 U" kindly collect the large amount of cardboard waste for us as a kind help. The Tamar was expertly cleaned of all debris. The site was also constantly being cleaned by "Saltash Environmental Action", alongside "Clean our Patch". I feel confident the site was very clean after the event.

The future is creative fundraising, the Regatta will return again but we need to push very hard for community support and sponsors, as despite it being a great event; sadly this year we did end up over budget and these costs rise year on year

We could not have run this event without the financial support received by Saltash Town Council and we are very grateful.

Yours Sincerely

Karen Lilley

Tincombe Tea Party - Event Report

The very first Tincombe Tea Party took place on 22nd August 2021 organised by the **Friends of Tincombe**.

With the help of many residents and members of the wider Saltash community, the Tea Party commenced at 2pm and wound down around 5.30pm. The afternoon was started by Thomas Tingcombe who popped along from the 1750's. At that time, it was the Tingcombe family that owned the land our event was held on.

Thomas spent the afternoon meeting the community, giving chocolate coins (Thomas Tingcombe left £1 to the parish of St. Stephens when he died in 1750) to the children and educating them a little on the history of Tincombe. Meanwhile the Sunset Swing Band played swing music melodiously in the background.

At 3.30pm we held an ugly bug ball in which the smaller children dressed up as bugs and a prize was given to the most interesting fancy dress. All competitors received a prize.

The Friends of Tincombe ran a coffee and cake stall along with some home-made items we had for sale. The Friends also had a stall that allowed children to make bug boxes to take home and information sheets to colour in. We also allowed people to

We also hosted many other stalls at the Tea Party including Cornwall Wildlife Trust, Celtic Balance, Hannah's Charity, Saltash environmental Action, Baby & Bump, Bridge View Quilters.

All the stalls that attended live locally and many live adjacent to the park. Stalls attending only sold hand made products and for a few sellers it was their first time selling from a stall as they were starting a new businesses.

In our estimates around 1000 people passed through on the day with perhaps around 150-200 at any one time.

The Friends of Tincombe would like to thank **Saltash Town Council** for it's support of this event and for funding it at such short notice.

The Tea Party had many positive comments from visitors and adjacent homes. A very glowing report came from **Cornwall Wildlife Trust** which I have copied for you below.

"Just wanted to congratulate the friends group on a successful event today. This was easily the best event of this kind I've attended over the years. A lovely atmosphere with families relaxing and the band were great."

James Jenkins (Chair) Friends of Tincombe

Saltash Town Council

Social Media Policy

Saltash Town Council (STC) is a trusted organisation that needs to have a strong social media voice. The council needs to have active two way conversations. Social media should be

- Relevant
- Interesting
- Informative
- Tell a story
- Seek feedback

Section A: Operation of policy

- 1. This policy will be reviewed every 6 months by the Working Group who will recommend any changes to Council.
- 2. Minor changes can be implemented by agreement of Clerk / Working Group Chair for example minor additions to content, modifications to style, experimenting with different media etc.

Section B: Aims of use of social media

The aims of the council's expansion into social media include:

- To meet the requirement for communication as part of Quality Council Status.
- To communicate with more people, including younger people.
- To provide information for people who can't get to the Guildhall.
- To provide an alternative way for residents to communicate views, issues and question, bearing in mind that some are more comfortable communicating online.
- To promote tourism.
- To provide positive publicity for the town, town centre, town organisations, town events and town council.
- Town centre promotion.
- To receive residents views and issues.
- To promote two-way communication and consultation.
- Potentially in future to broadcast (podcast) council meetings, increasing 'attendance' and awareness.

Section C: Types of Social Media

2

DRAFT 10/2021

Deleted: "If your council isn't using Facebook, test the water. It's a great way of getting information out to people. Used well, it can cut calls to your contact centre. But it isn't just about marketing. It's not simply for customer service and it's not solely about engagement either. It's all of those things. It's about bringing councils closer to the communities we serve" - Sandwell Council's press officer¶

Deleted: Readopted 052021

- 1. STC will initially use a Facebook page (a 'like' page, as opposed to a personal account with 'friends') and a Twitter account.
- 2. STC will potentially expand into use of a blog (allowing councillors to post personal projects and views) and Googleplus.
- 3. In the medium term STC will consider the use of podcasting and a YouTube Channel.

Section D: Responsibilities & appropriate use

- Both the Facebook page and the Twitter account will be the responsibility of the Administration Officer assisted by those other staff members who have been trained. They will be registered 'administrators' for the Facebook page and will have the username and password for the Twitter Account, and will assist in promoting the pages (see Section H).
- 2. This is not expected to be an onerous task for any of the staff involved and should not take up a significant amount of time. Facebook and Twitter posts that need to be repeated will be scheduled in advance to be spread out throughout the day/evening in order to engage with as wide an audience as possible.
- 3. The Town Clerk will monitor and offer guidance as required.
- 4. The Chair of the Working Group will also monitor, will give feedback to the Clerk and staff, and may be consulted for guidance if required. S/he will be an administrator for the Facebook page and will have the username and password for the Twitter Account: this is solely to provide continuity of access if staff are on leave/ill/leave etc.
- 5. Councillors will not be involved in 'official posting' but are encouraged to promote the pages (see Section H).
- 6. Official posts must conform to the content and style guidelines below.
- 7. All staff must not post in their personal capacity during office hours.
- 8. Councillor posts, or staff posts in their own time, must make clear whether any opinions posted are either official STC policy or their own personal view.

Section F: Administration guidelines

- In general, STC will only 'like' or follow organisations who provide information related to public services or public transport that is likely to be of interest to residents of Saltash, and will otherwise not 'like' or 'follow' other pages and users of Twitter.
- 2. Further to F1, The Clerk or Chair of the Working Group can approve additional pages to be liked or followed.
- 3. STC will reply as appropriate where posts are not abusive/using inappropriate language.
- 4. Where a member of the public or page has liked or shared our post they will be invited to like the STC page as a way of organically growing followers.

Deleted: – it is anticipated that the staff operating the accounts will spend around 15 minutes a day on average on these tasks (where possible spread throughout the day to not 'cluster' posts).¶

Deleted: Readopted 052021

DRAFT 10/2021

- 5. Users who do post abusively or using inappropriate language will be warned once and then blocked or banned.
- 6. These guidelines will be posted on the Facebook page and Twitter account where possible.

Deleted: Readopted 052021

4

Section G: Content & style guidelines

- 1. If unsure on any point of content or style consult the Admin Officer in the first instance and then the Clerk or the Chair of the Working Group.
- 2. Official posts must express no personal opinions: only factual information or council policy.
- 3. In general, anything that would be allowed on the STC noticeboards will be allowed on the Facebook page and will be re-tweeted.
 - a. General content should include:
 - i. Regular items
 - ii. Next meeting: main topics.
 - iii. Major town events.
 - iv. Photos from events/engagement if available.
 - v. <u>Updates on work being undertake across Saltash to include</u> before and after photos
 - b. As and when items
 - i. Consultations on items such as toilet opening times, colours to paint a public building. A narrow field of options will be given and the results given on social media with follow up photos.
 - ii. Elections reminder when and where to vote.
 - iii. Important public information (school closures, road closures etc.).
 - c. Periodic reminders
 - i. Allotments.
 - ii. Guildhall hire.
 - iii. Festival fund.
 - iv. Community chest.
 - v. Notice-boards.
- 4. Post using 'we' rather than 'I'.
- 5. Try to spread posts too close together and it may bore people, or they won't see everything you share. Over-posting can put people off, especially on Facebook.
- 6. Postings should be in plain everyday English not 'council speak' or acronyms for example 'snow' not 'inclement weather' and 'budget setting' rather than 'precepting'. Use of informal language where appropriate should be used to engage younger audiences.
- 7. Where possible share posts that have been written by trusted organisations such as Cornwall Council instead of rewriting
- 8. Add photographs where possible. Avoid using photographs that clearly identify under-18s unless they are supplied by organisations with clear child protection procedures (such as schools or sports clubs).
- 9. Facebook live and videos will be used to engage a wider audience. 'Ask the Mayor' style sessions will be held where the Mayor will respond via video to

5

questions submitted. Behind the scenes at STC videos will be used to engage with the community.

- 10. On Twitter, Use hashtags (#) and at signs (@) as appropriate. '#' flags up a post as being about a particular topic so people can easily find it so #severeweathersaltash please ring Saltash TC on 844846 if a grit bin near you in Saltash needs refilling'. '@' identifies a particular twitter user so '@sheryllmurray attending Town Council this evening: come along to give her your view on transport issues in Saltash' etc.
- 11. The use of emojis should be used where appropriate. For example using a weather symbol when talking about predicted bad weather or flowers when highlighting the floral displays. All emojis can be checked for suitability at emojipedia.org
- 12. If a post requires a response of general interest (e.g. about a road closure) post or tweet to everyone. If it requires an individual response (e.g. about a casework issue) message them on Facebook, or tweet contact details (as replying individually requires 'following').
- 13. When replying to queries or comments speak as you would to a customer in person or on the phone.
- 14. If a query relates to something that STC doesn't deal with try to give as much information as possible about who to contact (e.g. officer name if possible). Remember that as they are already online a link to a web page or email address may be better than a phone number.

Section H Promotion

STC staff and members will aim to promote the Facebook account (to get 'likes') and the Twitter account (to get 'followers') via

- a. Town Messenger
- b. STC Website
- c. STC Noticeboards
- d. Suggestions on Facebook
- e. Word of mouth
- f. Other appropriate ways as agreed

Report from Saltash Town Youth Council and request for annual grant

Please find attached an invoice from Saltash Town Youth Council requesting the annual Precept funding Grant for Youth Organisations and young people of Saltash.

Also attached are last year's accounts and our accounts to date. In September Saltash Town Youth Council finally managed to meet face to face for the first time since March 2020. However, we have been able to offer support to our youth organisations by way of Grants and send regular emails keeping everyone up to date with all the help that is available including outside funding, Covid updates etc.

Some of the Youth Organisations have struggled throughout this pandemic and have just started to find their feet after the summer. Some have not yet resumed due to lack of leaders and for the St John Ambulance lack of premises. (Their hall is being used for storage for NHS) Many of those who did resume activities had to adapt their working practices to comply with Covid restrictions and this has incurred additional costs for volunteer training and equipment. We have supported those who have applied for funding and would like to thank them for their concerted efforts in getting their organisations up and running, which has at times been very challenging and time consuming.

We as a committee recognise how vital it is to support these clubs and thus the mental health and wellbeing of young people. We will, with your help continue to support them in any and every way that we can. Many of their fund raising opportunities have been curtailed for some considerable time. It is imperative that we support these organisations so that they can support our young people.

To this end, in recognition of the difficulties the clubs have experienced we have suspended the annual £5 subscription and increased the Grant per organisation from £250 to £500 until the end of December. At our last meeting we also agreed to explore the possibility of sponsoring some young people who may be finding it financially challenging to attend a local club. We will work with schools and the clubs to identify young people who may benefit from this support. We would also like to encourage any youth organisations in the town who are not affiliated to the Youth Council to join us and benefit from the grants and information/connections we have.

Also attached is a list of 60+ Youth clubs/organisations/facilities we have in the town – these include our current members, not for profit, charities, National youth groups and private businesses. This is just a simple list for anyone who wants to know what is available to young people in the area – all clubs and up to date information can be found using a simple internet search of Google/Facebook which will bring up the suitable ages/venues/days/contact details etc.. Not all clubs have a specific youth section but will welcome young people with a parent/carer. Please feel free to add this list to your website and let us know of any clubs that you feel should be added.

We would like to take this opportunity to thank Saltash Town Council for their continued support which will undoubtedly prove vital when normal business is fully resumed.

Any queries/problems please do not hesitate to contact us.

Many thanks

Treasurer Saltash Town Youth Council.

Saltash Team for Youth

<u>Information</u>

As an advisory working group for the Town Council, Saltash Team for Youth (STY) recognise they have no powers to make financial decisions or a budget therefore reporting recommendations to the Policy & Finance Committee.

STY agreed that due to the nature of the group and potentially working unsupervised with children and young adults, it would be necessary for STC Members to be hold an Enhanced Disclosure & Barring Service (DBS) certificate. Two of the four Members of the STY hold an enhanced DBS certificate therefore two STC Members would be required to apply.

STY see the need to increase the budget for the tendering process for youth service provision in the town (it's remained stagnant for many years at £40k) and also to establish a new budget for publicity / events / consultations we hold in the future.

STY also identified play spaces as areas that need further consideration. STY discussed the possibility of mapping play space provision in the town and how each one is managed. For example, Summerfields in Essa Ward is in an overgrown state with no play facilities currently available. The land is owned by Cornwall County Council and a friends group of local residents has recently been set up to address the issues.

STY Recommendations

1. An increase to the existing budget code 6222 for the tendering of youth service provision by 25% for the year 2022/23 to £50k.

Budget code: 6222 PR Commissioning Youth Work. Subject to approval, the increase of £10,000 be added to the precept for the year 2022-23.

2. Request to create a new budget code for publicity, events and consultations with an available budget of £1,500.00.

Subject to approval, a new budget code would be created and £1,500 added to the precept for the year 2022-23.

3. Request to create a new budget for commissioning a mapping of existing play space provision in the town to inform future needs with an available budget of £5,000.00.

Subject to approval, a new budget code would be created and £5,000 added to the precept for the year 2022-23.

4. DBS

Enhanced DBS Check costs: £40 per person

Administration Fee (Cornwall Council): £10 one off payment.

Total: £90.00

Budget Code: 6657 ST SNB Staff Recruitment Advertising

Budget Available: £2,751.00

End of report.

Saltash Team For Youth Terms of Reference

1. Aim

• Saltash Team For Youth exists to ensure the views and participation of young people is represented in the work of Saltash Town Council.

2. Outcomes

- Young people in Saltash are more involved, connected and can progress in the town where they live.
- Saltash Town Council's decision making is better informed due to young people's perspectives and involvement.
- The strategic priorities of Saltash Town Council increasingly consider their impact on young people, the next generation.

3. Governance and Membership

- o Saltash Team For Youth is a working group of Saltash Town Council.
- It is an advisory group and as such has no executive powers. The group therefore makes recommendations to the Policy & Finance Committee, a committee of Saltash Town Council, who refer these recommendations for ratification at full council meetings where appropriate.
- Its membership comprises of four Saltash Town Council councillors and representatives from six youth organisations including young people themselves.
- The four Saltash Town Councillors on the group will be DBS checked.
- Membership is by invitation, is limited to ten people and meets for a minimum of six times each year.
- As a working group of Saltash Town Council, the group provides its own administration and elects a Chair for each meeting.
- Outside of the meetings, each member commits to carrying out duties to achieve the outcomes of Saltash Team For Youth. These will include visiting youth activities in the town and assisting in publicising future events.

4. Key Activities in 2021 / 22

 Assess and monitor the youth work tender process making any recommendations to the Policy & Finance Committee of Saltash Town Council.

- o Refresh the current youth work tender criteria and specification document for implementation from April 2022.
- Agree recruitment strategy for recruiting representatives from youth organisations and young people to Saltash Team For Youth.
- Increase understanding of the issues facing young people, particularly those experiencing barriers in their lives as a result of poverty, poor mental health and wellbeing, special educational needs, disability and discrimination.
- Contribute to the 2022/23 precept budget setting process to ensure the inclusion of financial support for organisations working for and with young people.

Cllr Matt Griffiths 28/9/21
