

I can confirm that the contractor completed the work on Saturday morning. The toilets are fully functional and looking really smart. We have some bits and pieces to do ourselves (fitting sundries and a little decorative work) but that is due to be completed by Tuesday. The committee wish to thank the Council for their donation towards this project and patience as it has dragged on a bit. We have had numerous problems along the way which have had to be addressed and overcome but the end result is fantastic for our Community Football Club and is now one the town should be proud of. If any Councillors would like to visit and take a look they would be most welcome. I have attached a few photos of the completed project.
