

Exciting new play areas at Honeysuckle Close and Grassmere Way

Saltash Town Council working with Pillmere Community Association secured grant funding from Cornwall Council late last year to regenerate two play areas, one at Honeysuckle Close and another at Grassmere Way.

Over 100 surveys were completed last summer from residents across Pillmere who supported the provision of new play equipment for our young people.

Konsel An Dre Essa

Honeysuckle Close will provide new play equipment for children up to aged 7 years old and Grassmere Way as the larger of the two sites, will provide play opportunities for children up to 12 years old.

Having been through a competitive procurement process, we are delighted to say we have appointed experienced play contractors, Creative Play who have an excellent track record in providing fun, innovative and safe play areas and whose work complies with all British and European standards.

The timetable for the respective works subject to the pre installation site meeting and weather conditions at the time, is as follows:

- Week Commencing 9th September – Grassmere Way
- Around 25th September – Honeysuckle Close

Both play areas will be completed by the end of October 2024.

Creative Play are used to working within community settings and we are assured that the installation will be respectful with as minimum inconvenience as is possible.

Saltash Town Council are meeting with Creative Play towards the end of August for a pre installation visit to plan the work and address any on site issues.

The contractors will work within normal working hours of Monday to Friday 0830 to 17.00.

Please see attached the visuals of each play area.

Should there be any issues during the works, please call Saltash Town Council on 01752 844846 Option 5 or email enquiries@saltash.gov.uk

We look forward to the opening of our two new play areas this autumn!
