

APPENDIX A

A38 Saltash Tunnel Overnight closures

A38 Saltash Tunnel – upcoming overnight closures

Starting early in 2025, we'll be undertaking a major modernisation upgrade of the A38 Saltash Tunnel in Cornwall. This represents a £25 million investment from National Highways to improve journeys and maintain the safe operation of the tunnel for many years to come.

These essential upgrade works will help to:

- keep everyone using the tunnel safe
- provide more reliable journeys
- reduce the risk of unplanned closures

To get ready for the start of next year's scheme, we need to undertake some preparatory works within the tunnel. This will include surveys, trial holing, manhole replacement and gully repairs. These works will be undertaken via weeknight overnight tunnel closures, from 8pm – 6am.

Upcoming overnight tunnel closures

- Tuesday 3 December – Saturday 6 December
- Monday 9 December – Saturday 14 December

Please follow the standard diversion route via the B3271 and North Road.

Please remember that closures can change at short notice. You can check the latest information on our [daily closures page](#) or find live travel information on our [Traffic England website](#).

We apologise for any inconvenience these overnight closures may cause but thank you for your continued understanding.

We are now in the final stages of fine-tuning the programme of works for next year's scheme which includes the associated traffic management plans. The works will continue to be phased, and we will share full details as soon as possible.

Help us to spread the word

Please help us by sharing this update. Please share this message with your connections and network, as well as on your own channels.

Any questions?

If you have any queries or comments about the work, or would like further information please contact National Highways Customer Contact Centre on 0300 123 5000 or by email: info@nationalhighways.co.uk
