

**To receive a report from Town Team and consider any actions**

Re Blitz Memorial Bench

Following representations, we have reconsidered the need to relocate the above to facilitate the market stalls trial due to start in March 2025.

The concerns were raised on behalf of the disbanded Blitz Committee, highlighting the significance of the location.

With the aid of Diverse Events, who will be organising the market, we have been able to re-align the market stall positioning so, although compromised, we are able to still have the same number of stalls in this location for the trial period, but this will be reviewed during the 6-month period of the trial.

It is still our ambition to create an open space to facilitate not only further markets (if the trial is successful) but also small events etc.

We have offered the opportunity to liaise with concerned parties as to the relocation of the bench, if it is thought necessary, to accommodate the activities that will help to make the Town Centre more sustainable in the future and to be in line with the public consultation carried out early last year.
