Traffic Management Update – A38 Stoketon Cross Night Closures

We would like to inform you of upcoming traffic management arrangements at A38 Stoketon Cross. Planned night works will commence on Monday 20th April and will take place over four consecutive nights. During this period, there will be a full closure of the A38 at Stoketon Cross, with clearly signed diversion routes in place.

The closures will be in effect each night from 8:00pm to 5:00am.

These works are necessary to facilitate the installation of new services ducting across the A38, which requires excavation of the existing carriageway. Please see the diversion plan for further details.

Interesting meeting at recent CAP event, Reference Democracy and Elections presented by John Heskeith. Where he explained that the turn out of 10% of residents to elect town and parish councils, with 90% of Town and Parish Councillors keeping their seats because of no one else standing and where there was not enough seats to be filled, being CO-Opted onto the

Saltash TC

councils. I believe more information needs to be sent to residents when seats become available to they can have the right to vote and not left to Councillors.

Safer 38 Group are looking for more members to join their Group, the team are doing a fantastic job in all that they do. Please find them on Facebook
