

## APPENDIX 2

**CNA Panel: next meeting 8<sup>th</sup> December****Climate Change Working Group** (*next meeting 3<sup>rd</sup> December*)

The first meeting of the Panel's Climate Change working group was held on 16<sup>th</sup> September. The next meeting will be on 3<sup>rd</sup> December, and the Group will present a report at the next Panel meeting.

**Saltash Area Road Safety (SARS)**

SARS met on Monday 1<sup>st</sup> November under the chairmanship of Derek Holley, and will report into the CNA Panel at the next Panel meeting.

**Health and Care Focus Session:** 11<sup>th</sup> Nov, 6pm – 7:30 (via Teams)

We are setting up new single-issue focus sessions to enable the network to take a deep dive into issues that affect the whole of the area. The first session will be on health and care and will be held by Microsoft Teams on **November 11<sup>th</sup> 6pm - 7.30pm.**

**Guests:**

Paula Bland, East Cornwall Primary Care Network, and other NHS colleagues

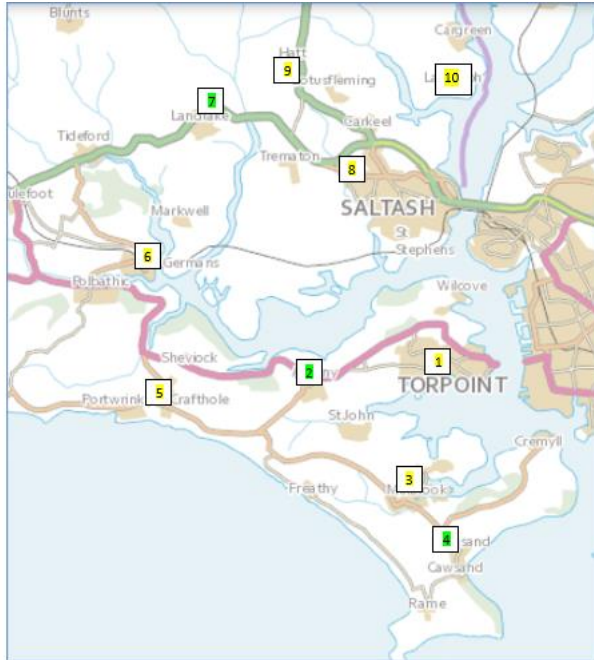

Amy Howard, Cornwall Council Adult Social Care, and colleagues  
Representatives from Patient Participation Groups at local surgeries

**Background:**

The Government is expecting local areas to establish Integrated Care Systems (ICSs) bringing together not only health and care services, but also wider community participation in the provision of services and support for local citizens. The Gateway CNP will fall under the remit of the Integrated Care Board for North and East Cornwall. This focus session will examine how best to ensure that we as local elected representatives, community organisations and individuals can establish routes to enable our voices to be heard in the operation of current services and the shaping of future provision.

**APPENDIX 2****Mobile Speed Signs**

Mobile speed signs have been purchased through the Network Panel, and are being rotated round the ten locations shown on the map. Location number 8 is on Liskeard Road.

**APPENDIX 2****Leisure Centre**

Many thanks to all those who took part in or helped organise the march on 30<sup>th</sup> October, protesting against Cornwall Council's Cabinet's proposed closure of Saltash Leisure Centre. It was pleasing to see so many people of all ages.

The Leisure Centre survey received 4,700 responses. We have been informed that additional officer time has been allocated to ensure that the responses are collated, and the results will be made publicly available. The information will be included in the report that will be debated by Cabinet in December.

**Walking/Cycling routes**

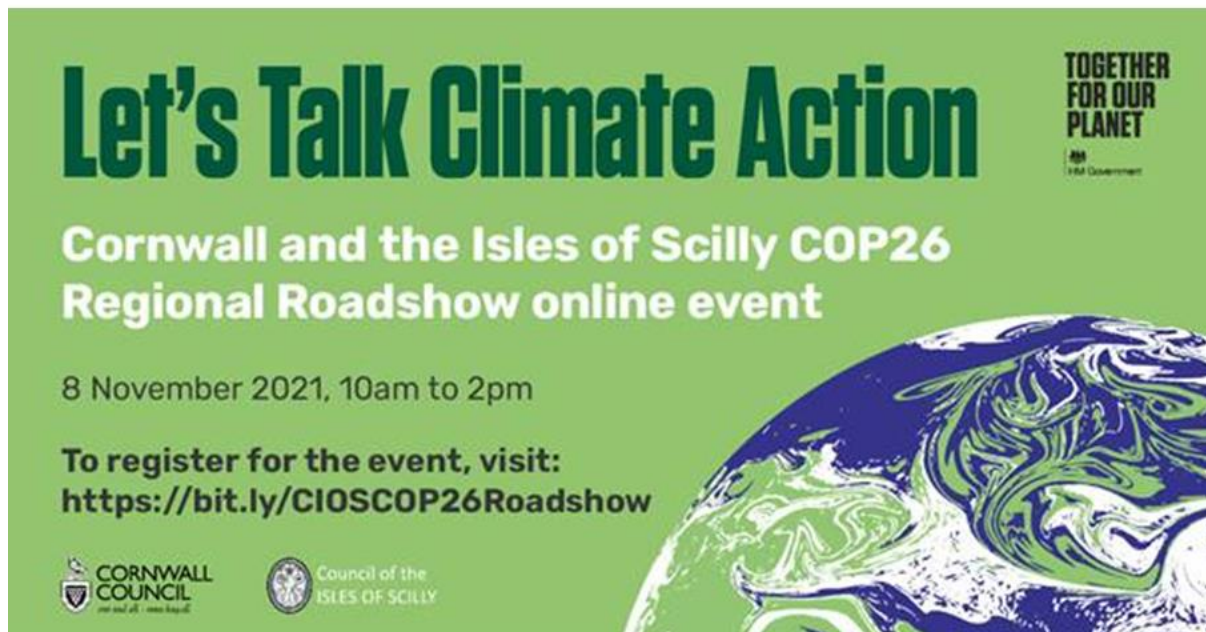

For many years, there have been issues with road safety outside St Stephens School, as well as issues at the Broad Walk entrance of Saltash Community School. As Phase 2 of the Walking and Cycling Routes, Cornwall Council commissioned Aecom to develop schemes in these areas. The draft schemes are now at a stage where they can be shared with town councillors for their input before going out to public consultation. We are hoping that we can fix a meeting with town councillors on 17<sup>th</sup> or 18<sup>th</sup> November.

**Fore Street**

Bus and parking bays on Fore Street will be resurfaced in the week commencing 8<sup>th</sup> November, in order to remove the Covid 'humps' and repair the unsafe surfaces. The taxi rank will also be repaired. When this is taking place, the teams will relocate the taxi bay to the adjacent parking bay and sign accordingly.

I've been given assurances that the works will be undertaken as quickly as possible and that every effort will be made to ensure there is minimal disruption to pedestrians, traders and traffic.

## Climate Action Online Event

The online event will feature a series of six themed conversations, focusing on the areas of Cornwall's highest carbon emissions. Following on from the event Cornwall Council will be engaging with groups and organisations to co-design a series of 'Cornwall Climate Commitments' to encourage everyone to take climate action and reduce Cornwall's carbon footprint.

## A38

National Highways has launched an online feedback tool for road users and those who live near to England's motorways and major A roads to give their views on where investment is needed the most. This is your opportunity to help highlight the importance of investment in the A38, so please go online to make your views known. (Open until 30<sup>th</sup> November):

## TOWN VITALITY FUND

£84,000 has been awarded from Cornwall Council's Town Vitality Fund to instigate feasibility studies looking into setting up a market square in the retail centre of Saltash, creating a green event space in the heart of the town.
