

Report Received from Saltash Waterfront Residents Association

Due to COVID restrictions the Saltash Waterfront Association has been unable to meet and we are in the process of reviving the association with the creation of a Social Media Page. This is currently underway and with social media being the modern way of communicating, I am hoping it will reach all ages in the community.

Our first AGM is to be held in early April, this information will be communicated to all current channel's and new channel's.

My expectation for this year is to enrol more members from a cross section of the community, with new, fresh ideas to bring the residents together.

Many Thanks
Jackie Dymond.
