

## ANNUAL REPORT OF CARADON GATEWAY COMMUNITY NETWORK AREA PANEL (CNP)

Over the last year, CNP meetings have been held online. They have enjoyed excellent attendance and input from the 11 Town and Parish Councils, as well as from the five Cornwall Councillors in this network area. Meetings have provided members with an excellent forum to share best practise and debate common issues.

The CNP continues to provide a positive platform to engage with the police, and the Sector Inspector has attended all meetings. The invaluable work being carried out by Derek Holley and the members of the Saltash Area Road Safety Group (SARS) has been recognised, with regular SARS reports to the Panel.

The 4 CNP priorities agreed in June were :

- Climate Change and Environmental Sustainability
- A38
- Air Quality, with specific reference to Tideford and Landrake.
- Water Transport

Given the priority given to the issue, the CNP agreed to create the Cornwall Gateway Climate Change Network, which has met twice and has also had a separate meeting with Cornwall Council's Nature Recovery team. This network comprises representatives from all Town and Parish Councils in the CNP, in addition to representatives from active groups such as Cornwall Climate Care.

In addition, a focus session was arranged in November to take a deep delve into the topic of health and care. Following the success of this focus session, it is hoped that other single-issue focus sessions will be arranged in the future, capacity allowing,

This year, we welcomed Will Glassup as the new Highways Manager to the CNP and his input, support and guidance has been invaluable. At the last CNP meeting, all welcomed the news that the Community Network highways scheme was to be relaunched, with a budget of £57,000 per annum for 3 years.

Finally: thanks and praise for Catherine Thomson (Community Link Officer) and Lisa Grigg (Communities Support Assistant) for their excellent, dedicated work over the past year. The achievements of the CNP are in large part due to their dedication, insight and excellence.
