

SALTASH TOWN TEAM

The Town Team is made up of a group of like-minded individuals who are committed to obtaining funding and to undertake projects for the enhancement of Saltash and for the betterment on behalf of residents and visitors alike.

The Team consists of the three Cornwall Councillors who collectively represent the three wards within Saltash, together with three Town Councillors, of which the Chair of the Saltash Town Vision Sub Committee is one.

Additionally within the group are representatives of the Saltash Chamber of Commerce and the very proactive CIC PL12. We are extremely fortunate that within the representative groups can be found a wealth of members who also have other interests and participate and support various other charities and organisations within the Town. We can therefore call on vast experience of local business, charities, clubs and committees.

During the year we have seen the new Sound System installed in Fore Street, now largely completed with the final testing due shortly. Alongside that project we are in the process of commissioning more seating areas within Fore Street to make the whole shopping experience within the Town more enjoyable. We have been very successful with funding for these projects outside the Town Council precept costs, so these have been able to progress with no cost to the residents of Saltash.

Our latest project is the application, in conjunction with the Saltash Vision Team, for monies from the Vitality Fund that has become available, via grants from a substantial pot of money set aside by national government for the enhancement of Town Centres within Cornwall. We are awaiting the results of our bid but are hopeful that we will be able to publish our ideas and plans in the forthcoming months.
