

## Good Growth Shared Prosperity Fund Investment Plan for Cornwall and the IoS 2022-25

As part of this programme, there are 2 proposals that will link into CNP's that are currently in development and subject to formal approvals under the Good Growth programme -

### **Community Levelling Up Programme and Community Capacity & Facilitation Fund**

- **Community Levelling Up Programme (CLUP)** is a £11.49m programme to help communities develop their place-shaping ambitions and empower them to drive the changes they need. In 2022/23 ("Year 1"), it is proposed the CNPs will input into the development of Local Good Growth Delivery Frameworks to underpin delivery of the programme in 2023-25 (Years 2&3). In Years 2&3, it is proposed the new Community Area Partnerships (CAP) will have a devolved budget to implement their Delivery Framework (*if there were 12 CAP areas, the current draft estimated budget for each CAP would be £400,000*). They will also be able to apply to a central "performance reserve" to bring forward more/larger projects; and draw on support from the CLUP facilitation and project development support team, which will assist applicants through the process and drive delivery of key strategic projects.
- **Community Capacity & Facilitation Fund (CCFF)** is a £2m programme to support and build the capacity of communities to develop project proposals for larger projects so they potentially secure larger-scale delivery funds (from any SPF programme and other sources), expanding on the existing Town Vitality funding programme. CNPs/CAPs will be able to draw on support from the CCFF team, which will be in place by January 2023, funded from the programme budget. The team will focus on building capacity and directly supporting communities to bring forward project proposals. In Years 2/3, it is proposed that each CAP will have an allocated budget to support programme objectives (the total delegated budget for this period across Cornwall is £1.255m); this will be on the basis of assessing and prioritising applications for funding support from organisations within their areas (e.g. funding for feasibility studies, place-based economic strategies, training to strengthen community capacity).
