6th October 2022

Dear Richard,

34000 SUB - Saltash Station Feasibility

Further to our ongoing discussions for the car park external works areas at the station we have assumed we would provide a high level feasibility to explore opportunities and cover 3 options.

This would include the options and indicative construction costs for each.

The proposed fee would be £2,250 +VAT inclusive of all expenses and disbursements. We would look to deliver the feasibility in 6 weeks from instruction or possibly sooner if you have a specific town council meeting gateway.

Should you need any further information at this stage please let us know.

Yours Faithfully
