Good morning

A second consultation letter has been sent because there are some minor amendments that have been made to the proposal. There is a document available to view as part of the application outlining these changes. However to summarise the changes refer mainly to the size and placement of windows which have been made due to the new building regulation requirements.

Please do ignore the first letter sent on 17/11/22 and use the details provided within the letter received on 05/12/22. For your information, neighbours have also been reconsulted as a result of the minor changes to the application details.

Kind regards,
