

**SALTASH TOWN COUNCIL**

**VOLUNTARY TREE WARDENS REPORT**

**PA22/10038 Spencer Gardens**

This is a large site with numerous trees, all protected , and this is not really a clear application and the area has also has been subject to previous applications . All land owned by Cornwall Council. There are more trees along Spencer Gardens than shown on the map. We broadly concur with the recommendations (T9 is a dying Norway maple, G9 a silver maple is just having superfluous growths removed). Self-sown sycamore T7 is recommended for an all around fairly severe trim. CONCLUSION - RECOMMEND STC AGREE.
