

To receive a report on grit bins located within Saltash and consider any actions and associated expenditure.

Following the Services Committee meeting held on 9th February 2023 pursuant to minute nr.

110/22/23 To receive a report from the Service Delivery Department and consider any actions and associated expenditure.

Grit Bins

It was identified the portfolio list held by the Town Council was not extensive.

Members requested the SDM and Assistant Town Clerk (ATC) ascertain which grit bins are owned, managed, and maintained by the Town Council and report back to a future services meeting.

Update:

A thorough review of Essa Ward has been undertaken with comparisons made to all information held by the Town Council, Cornwall Council Mapping System and information provided within the Saltash Neighbourhood Plan.

The pictures contained within the attached spreadsheet were taken this week (W/C 29.05.23) a full survey of the condition of the bins and grit levels will be included in the SDGA work schedule with Members to be updated accordingly. To view pictures please click on the attached spread sheet 'click here' links in the picture's column.

Now that the all the bins for Essa ward have been identified we hope to repeat with Tamar Ward and Trematon Ward returning to CC to request final clarification as to which bins are the property of the Town Councils. Once this is confirmed this information will be included in the Town Council portfolio's and will enable the SD Team to clearly label and identify to avoid confusion in the future.

End of report

Service Delivery Manager
