

## **Report to Saltash Town Council**

### **Healthcare Action Group - Update**

The Action Group met again on June 7, and a clearer vision is beginning to emerge. Progress is summarised in the attached document. The NHS lead, Dr Andy Sant, also expressed the wish to write a personal report for publication in the Saltash Observer, and this will appear in the next Issue. Watch out for that!

The Group meets again on 12 July, and our joint wish is that a more developed vision can be outlined then, together with timescales and resource implications. We know this is ambitious, and that things can easily come off the rails, but we remain optimistic.

We want to thank the Council again for its support of this project.
