

Saltash Town Council Voluntary Tree Wardens Report

PA23/08361 – Playground Pollards Way Saltash

We have no objection to the proposed action to remove the upper part of this group of ash trees and support leaving the lower trunk as monoliths for the benefit of wildlife. We note that the Tree Officer has recommended a replacement oak be planted, and we point out that this needs to be sited on the open grass not in the woods, as an oak needs good light to thrive.
